Switch to the fastest network

👍 full fiber broadband

With COM-IN, the fiber optic cables do not end at the distribution box on the street. We bring fiber optics directly to your home. This means internet of the best quality, awarded the BREKO seal "Real Fiber Optic".

👍 fit for the digital future

Sustainable, trouble-free and stable, no matter how many people are surfing the internet at the same time. The COM-IN fiber optic broadband offers unlimited performance.

👍 unbeatable local service

Our friendly experts will take their time to help you solve your individual concerns. We take care of everything - especially your COM-IN fiber optic house connection.

👍 switch easily & carefree

Select a deal, conclude a contract, and we will activate your new internet connection in time for the agreed start of the contract. Phone number portability included. This is how COM-IN works!
